

Territory Kids Are Worth It

MEDIA RELEASE

“It is time for the Northern Territory Government to put its money where its mouth is and bring education funding into the 21st Century”. NTCOGSO President Mrs. Lisa Rothwell said today.

“It is incomprehensible why the NT Government will not take this opportunity to make the most significant investment in the territory’s future.”

“The education reforms in Gonski are directly beneficial for Territory kids and our kids are worth it”, she continued.

The Gonski reforms see education funded by a student allocation with additional funding on a needs basis. All schools have been guaranteed not to lose any funding.

The difference is that where there is identified need than additional funding is provided. Territory kids are the winners from the Gonski reforms.

“Come on Chief Minister our kids are worth it.” Mrs. Rothwell said.
